REPORTS FINDING OF MAYFLOWER

Hull and Oak Timbers of
Pilgrim Ship Said to Be
Located in England

LONDON, July 29.—Discovery of the hull of the Mayflower ship in which the Pilgrim fathers sailed to America is claimed by Dr. Hendel Harris, chairman of the English speaking union, according to the Daily Mail. He will reveal details of the secret at a conference to be held at Plymouth in September.

In the meantime, however, the paper learns that old timbers, including oak beams supporting the roof, found in a barn adjoining an inn, at Buckinghamshire, are considered by Dr. Harris to have originally formed part of the hull and deck of the Mayflower. Some of the beams, which are worn and worm eaten, bear marks indicating they might formerly have held ship's rivets and fackles.

The duchess, who formerly lived here, was met at the pier by Portuguese royalists. She is the widow of Don Alfonso, brother of former King Don Carlos of Portugal. She lived in virtual exile with her husband in Italy following the revolution up until his death in Naples last February. Prior to her marriage to the duke she was the wife of Philip Van Volkenburgh, whom she married in 1911. She was then the widow of William H. Chapman, who died in 1907, at the age of 70, leaving her a large estate through which she became known as the "ten million dollar widow."

SWOPE OPPOSED TO MORE JAPS FILLING STATES

Chairman of Sub-Committee
Which Investigated Conditions
Tells of Situation

LOUISVILLE, Ky., July 29.—Congressman King Swope of Kentucky, who was chairman of the house sub-committee, which recently completed an investigation of Japanese immigration to Pacific Coast states, declared in a statement issued here today that this country "has reached a point where we should not permit any unassimilable race to fill up our Pacific states or any other states." He said the "privilege of entry of any and all immigrants should be predicated upon their ability and desire to become real, loyal, patriotic Americans."

The sub-committee will report to the house committee when congressional assemblies in December. Mr. Swope declined to say what recommendations will be made.

UNDERSTAND MESSAGE.
"It is rather for the people of the east and south to understand the Japanese immigration question and its effect upon the Pacific coast," said Mr. Swope. "When we realize that about 100,000 of the Japanese live in California we can readily see why the Californians view with great alarm a continued Japanese immigration. Washington, Oregon and California in particular seem to represent an earthly paradise to the Japanese because of their favorable climate and fertile soil."

The Californians allege, Mr. Swope said, that "the gentlemen's agreement" is being violated and that Japanese immigrants are entering this country surreptitiously. They offer the fact that the Japanese population in California has doubled since 1913.

GET LARGE TRACTS.
Congressman Swope told of the acquisition of large tracts of land by the Japanese and the anti-land laws of California was being evaded by Japanese forming corporations, which were buying large tracts and through purchase by aliens of property in the names of their American born children. Inter-marriage was infrequent, said, because they love their traditions.

"We witnessed the arrival of a consignment of picture brides" who came to this country already "married" to Japanese men, he said. "A result of correspondence and exchange of pictures. Such a protest against that practice has been made by the Japanese called a half on the picture brides." So that after August of this year the Japanese men will be compelled to find another method of consummating their marriages with women in Japan.

though action is taken that may be productive of Russian resentment. "As there is no stable government in Russia at present, there is no alternative but to occupy the necessary point in Sakhalin province pending establishment of a legitimate government. The diplomatic world and history provides ample precedent for an injured country to take the step it thinks proper. I am desirous that such a government as will give Japan satisfaction shall be established in Russia as quickly as possible."

fight direct to the people and would visit a majority of the states. Discussing campaign contributions, Mr. White said the restrictions which had been proposed as to the size of the gifts were so easily circumvented as to make them useless and that the national committee therefore would content itself with a scrutiny of all contributions in order that no obligations on the candidate would be established by the acceptance of campaign funds.

TRENCHES AT WARSAW URGED

Ludendorff Offers to Raise
Army Against Soviets for
Certain Things

WARSAW, July 29.—(By the Associated Press.)—At last accounts the Bolsheviks were within the outskirts of Hailystok, the fall of which is expected here to occur at any minute. The newspapers are advocating immediate destruction of trenches, fortifications and other works for the defense of Warsaw before the Bolshevik advance too closely.

LUDENDORFF OFFER.
PARIS, July 27.—General Ludendorff is reported in a Berlin dispatch to the Journal to have made an offer to the British change of attitude at Berlin to raise an army of 1,500,000 men to fight the Bolsheviks in Russia in exchange for the return to Germany of Posen and the annulment of certain clauses of the Versailles treaty, among them the ones dealing with Danzig.

COMPLETE AGREEMENT.
LONDON, July 29.—(By the Associated Press.)—France, Italy and Great Britain are in complete agreement regarding negotiations with the soviet government, despite statements to the contrary made by sensational and inaccurate newspapers, declared Premier Lloyd George in the house of commons today in replying to questions concerning the Lusitania conference.

The premier read the message dispatched to the soviet government on behalf of the allied governments. The message called attention to the fact that the soviet government had sent two messages which contained complete participation of the allies in the proposed London conference. The first Russian message, the British communication pointed out, seemed to reject such participation, while the last message appeared to agree to it. Great Britain's message continued:

WORK OF CONFERENCE.
"The British government considers that if the allied governments are to meet with any chance of success, delegates of the Polish government and of the other border states concerned must also be present. The conference must have as its essential object the establishment of the peace of Europe and in the first place between Poland and Russia on conditions which will secure the independence of Poland and the legitimate interests of both countries."

The conference should also consider questions which are still outstanding between soviet Russia and the border states which have not yet signed definite peace with Russia. After the settlement of these questions the conference will deal with matters in dispute between the governments of soviet Russia and the allies and the re-establishment of normal relations between them.

son's three main recommendations are followed.

The mission reports that the Polish manpower is satisfactory, both as to quality and quantity. It recommends, first, the immediate sending of munitions to Poland; second, the immediate employment of 500 French officers and 250 French officers, and third, a re-grouping of the Polish army, notably the moving of troops from the Galician front to the northern front.

MORE OFFICERS ARRIVE.

WARSAW, July 27.—(By the Associated Press.)—Additional French officers attached to the military mission have arrived. All of them will be assigned to various Polish units as technical advisers. At same school for officers, under the supervision of French officers, was opened today at Rembertow, a suburb of Warsaw.

The newspapers continue to express their contention that the soviets do not want peace, but desire to invade Poland. They say it is clear from what is transpiring in the northeast that the Bolsheviks are aiming directly at Warsaw and that in the south they are searching upon Lemberg.

The Gazette, Warszawa declares: "Poland is fully aware that negotiations may be broken off any minute and that while they last soviet Russia will make all efforts to cause an outbreak of Bolshevism and revolution in Poland. Therefore, Poland, in order to safeguard an honorable peace must gather all her patriotic spirit and energy."

The Russian patriot Barrow, now in

Warsaw, is quoted by the Corrier Pologne as saying: "I do not believe peace will be made between Poland and soviet Russia. If they sign peace it will mean that the soviets hope through propaganda to establish a soviet government in Poland."

"Peace with Bolshevism would be the greatest calamity for Poland and Russia—that Russia that will soon appear and that will be neither a czarist Russia nor a Bolshevist Russia. We Russian democrats will not stop fighting Bolshevism as we believe its victory means the end of civilized Europe."

BOLSHEVIST VIEWS.

COPENHAGEN, July 29.—(By the Associated Press.)—Maxim Litvinoff, Bolshevik assistant foreign minister, in an interview today insisted that Poland having in previous negotiations with Russia "shown herself crafty and unfaithful," the soviet government must see to it that any armistice which Poland is not used to strengthen Poland's forces for further aggression against Russia.

"Moreover," Litvinoff added, "in face of the lessons already learned, we can not rely upon mere assurances even of the great powers. We are firmly resolved not to impose harsh terms on Poland and do not intend to abandon the cherished principles of the self-determination of peoples because the fortunes of war have favored us."

Litvinoff claimed that Russia had given generous terms to Estonia, Georgia and Lithuania when she stood victoriously over those states. "There-

by showing ourselves the true friend of small nations."

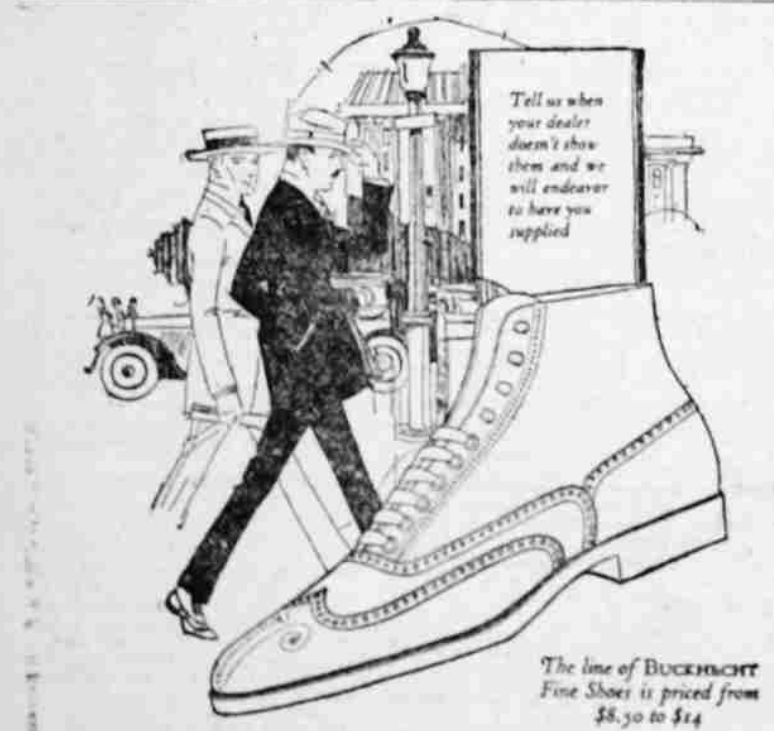

FAMILY OF PUBLISHER AGREE ON ESTATE SPLIT

MINNEAPOLIS, Minn., July 29.—The contested will of W. L. Murphy, former publisher of the Tribune, who died October 24, 1918, was admitted to probate today. All controversies have been amicably settled and an agreement filed in court.

The will gives to the widow her statutory one-third to the daughter, Charlotte, an annual allowance not to exceed \$5,000 and the sons \$3,000 each per year during the life of a twenty-year trust. At the expiration of the trust \$100,000 goes to the daughters and \$25,000 to each of the sons, with discretion given the trustees to increase the amount as they might deem wise.

Mr. Murphy's property was almost entirely of stock in various companies of a par value of approximately \$1,000,000 including the Tribune, of a par value of \$500,000.

The enormous shale deposits of this country are estimated to contain more than 100,000,000,000 barrels of oil, enough for more than 200 years at our present rate of consumption.
